Judging Score Rationale Sheet

Ahmad Issam Maadarani

Record the observation, connect it to the published criterion and explain its effect on the score. This example is hypothetical. Use the scoring scale of the actual competition.

Worked example

Competition / dish / sample code	Practice competition / main course / sample 12
Sensory observation	The thickness of the pieces differed visibly in two of four servings.
Published criterion	Consistent thickness of pieces across servings.
Score and rationale	8 out of 10 in this example. Two points were deducted on the hypothetical scale for inconsistency in two servings.
Suggestion for improvement	Use one cutting guide to check thickness before service.

Fields on the printable worksheet

Competition / dish / sample code	
Sensory observation	
Published criterion	
Score and rationale	
Suggestion for improvement
